

COMPANY PROFILE

Reliable
Infrastructure,
Real Impact

Engineering world-class lighting
and infrastructure solutions for
Brighter & Stronger Tomorrow.

Who We Are

At Frisson Globalize, we are your trusted partner in the world of international trade. With a deep commitment to excellence and a global perspective, we specialize in connecting businesses across borders. Our extensive network and local expertise enable us to navigate the complexities of international trade with precision. We take pride in our dedication to quality, sustainability, and client satisfaction. Our mission is to make global trade accessible and efficient, empowering businesses to thrive in the international marketplace. Discover the world of possibilities with Frisson Globalize, where every partnership is built on trust and every transaction is a step toward shared success.

MISSION

Our Mission and Values

At Frisson Globalize, our mission is simple yet profound: to foster global connections and progress through exceptional engineering exports. We're guided by core values of integrity, quality, sustainability, and client focus. These principles drive every decision we make, ensuring that we not only meet but exceed our customers' expectations. We believe in a world where trust, excellence, and responsible practices lead the way to a brighter future.

The Core of Our Success

1 QUALITY ASSURANCE

At Frisson Globalize, we make quality our top priority. Our rigorous quality control processes, adherence to industry standards, and commitment to using premium materials ensure that every product we export is built to last. Our clients trust us for reliable and durable engineering solutions.

2 GLOBAL REACH

With a vast international network and a presence in multiple continents, we possess the global reach needed to serve diverse markets. This extensive reach enables us to provide tailored solutions that meet the specific requirements of each region, fostering lasting relationships with clients worldwide.

3 CLIENT-CENTRIC APPROACH

Our clients are at the heart of everything we do. We work closely with them to understand their unique needs and preferences, delivering personalized solutions that exceed expectations. Our commitment to open communication, transparency, and exceptional customer service makes us a trusted partner in every project.

QUALITY

Excellence in Every Export

Our commitment to delivering products of the highest quality is unwavering. We adhere to rigorous quality control processes at every stage of production, ensuring that each product is built to last, even in the most demanding environments. Our dedication to quality is a testament to our unwavering commitment to excellence.

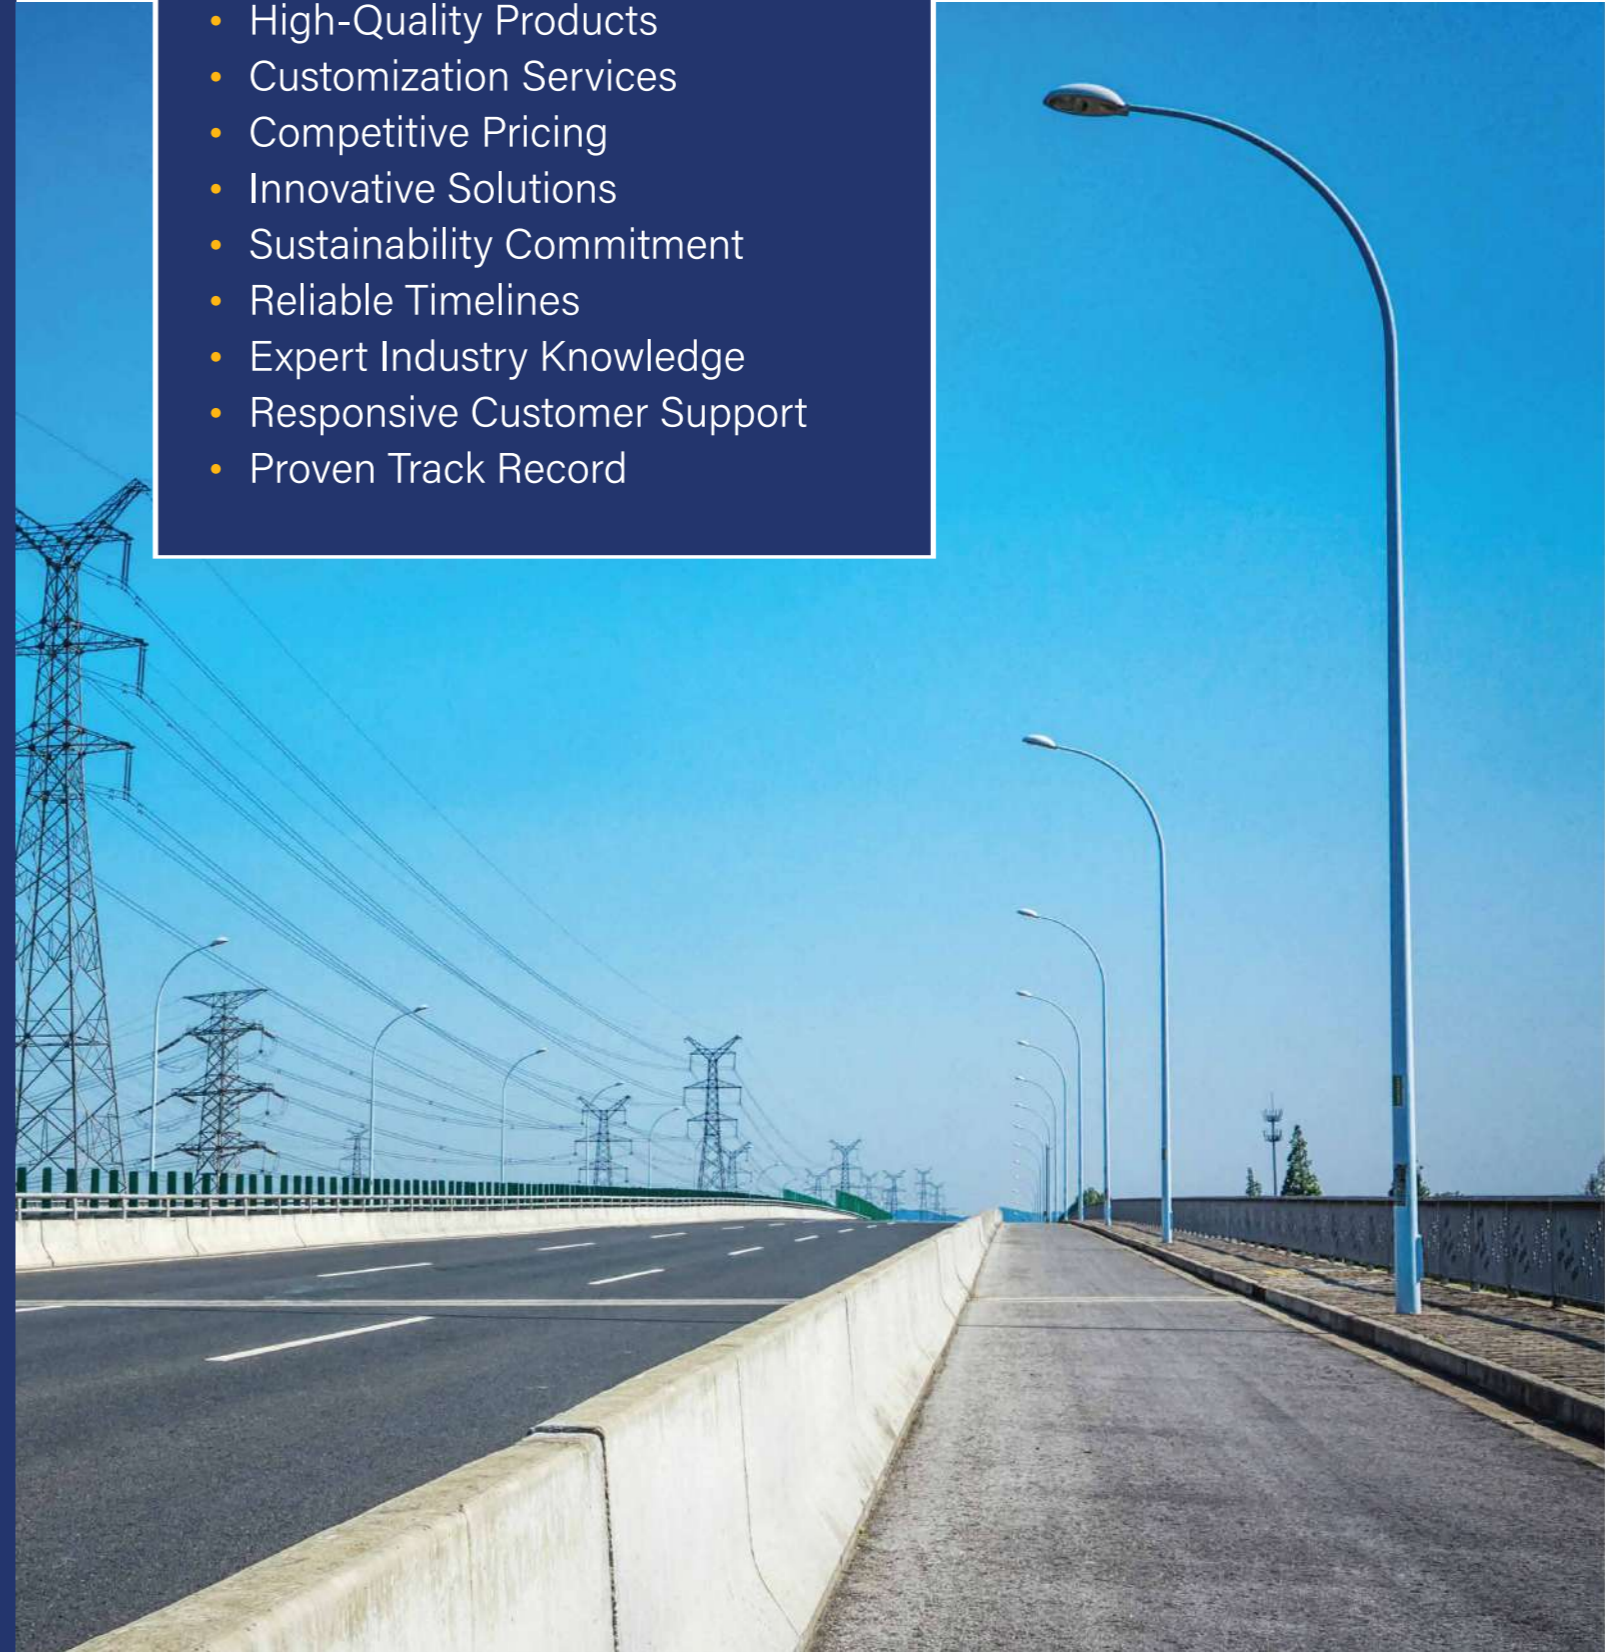

Quality Assurance Standards

Our dedication to quality is reflected in the certifications we hold. We are proud to be certified by recognized industry bodies, a testament to our adherence to the highest standards in manufacturing and export. These certifications underscore our promise to deliver engineering products that meet and exceed expectations, ensuring your peace of mind when you choose to work with us.

Advantages of Working with Us

- Global Reach
- High-Quality Products
- Customization Services
- Competitive Pricing
- Innovative Solutions
- Sustainability Commitment
- Reliable Timelines
- Expert Industry Knowledge
- Responsive Customer Support
- Proven Track Record

Available in height range of
12m to 60m

High Mast poles

At Frisson Globalize, we specialize in the precision manufacturing of high mast poles, elevating the standards of urban and industrial lighting infrastructure. Our high mast poles are crafted with meticulous attention to detail, using the finest materials and advanced engineering techniques. From design to production, our dedicated team ensures that each pole is built to withstand the test of time and harsh environmental conditions.

Applications

- Airport Lighting
- Seaport and Harbor Lighting
- Stadium and Sports Complex Lighting
- Highway and Expressway Lighting
- Industrial Area Lighting
- Parking Lot and Car Park Lighting
- Outdoor Event Lighting
- Railway Yard Lighting
- Container Terminal Lighting
- Prison Yard and Security Lighting

Sports & Stadium poles

For Stadium Flood Lighting, the most demanding lighting requirements are those for live television coverage with the HD transmission. Special Stadium Light provides excellent visibility and visual comfort designed with multisided for greater strength. The pole can be customized to accommodate variable number of light fittings based on your requirement.

Stadium lighting masts are designed with fixed head frame for mounting a large concentration of sports lighting luminaries. The height of the mast and the number of flood lights are based on the lighting design. Our structural design team has wide experience in manufacturing and supplying stadium masts.

We also has an Opticaldesign supply team. Depending on the field size, the location of the pole and the LUX requirement on the field, We can provide OPTICAL SIMULATION and suggest the height of the pole and the Luminaire requirement. The Stadium lighting masts are custom designed based on the lighting design and available site constraints

Applications

- Stadium illumination project
- Arena illumination project
- Sports Complex illumination project
- Race Track illumination project
- Tennis Court illumination project
- Football Field illumination project
- Baseball Field illumination project
- Cricket Ground illumination project
- Soccer Field illumination project
- Hockey Rink illumination project

Available in height range of
2m to 12m

Street light poles

At Frisson Globalize, we take immense pride in our precision street light pole manufacturing process. Every pole we create embodies our commitment to engineering excellence and sustainability. We start with the finest materials, carefully crafting each pole to meet the highest industry standards. Our state-of-the-art facilities are equipped with cutting-edge technology and staffed by skilled professionals who ensure the utmost precision at every step.

Applications

- Urban Street Lighting
- Residential Areas
- Commercial Districts
- Highways and Roadways
- Public Parks
- Pedestrian Walkways
- Parking Lots
- Airport Runways
- Industrial Facilities
- Campus Lighting
(e.g., universities, hospitals)

Available in height range of **2m to 12m**

Decorative Street light poles

At Frisson Globalize, the art of crafting decorative street light poles is a testament to our dedication to engineering excellence. Our manufacturing process combines precision engineering with creative design, resulting in beautifully crafted poles that not only illuminate the night but also enhance the aesthetics of urban spaces. From selecting premium materials to meticulous fabrication, each step is undertaken with the utmost care and attention to detail.

WIDTH 1535	HEIGHT 695	WIDTH 2000/3000	HEIGHT 1000	WIDTH 1550	HEIGHT 1400	WIDTH 1080	HEIGHT 1000
WIDTH 1030	HEIGHT 470	WIDTH 990	HEIGHT 1075	WIDTH 1910	HEIGHT 1400	WIDTH 1140	HEIGHT 1125

Applications

- Urban Street Lighting
- Heritage and historical place
- Parks and Public Spaces
- Historical Districts
- Pedestrian Walkways
- Commercial Districts
- Grandon and Museums area
- Airport parking area
- Residential Neighborhoods
- Tourist Attractions
- Campuses and Universities
- Outdoor Events
- Municipal Beautification Projects

Mobile Lighting Tower

Built for flexibility and performance, our Mobile Lighting Towers are the perfect solution for remote and large-scale outdoor lighting. Whether it's a construction site, mining zone, emergency response area, or public event—these towers deliver reliable, high-intensity illumination exactly where it's needed. Designed for mobility, durability, and efficiency, our towers come in three powerful variants to match your energy needs.

Engine Powered

Engine-powered lighting towers are designed for locations without access to electricity. Equipped with robust diesel generators, they provide continuous, dependable light—ideal for off-grid or critical operations like roadwork, disaster sites, or night-time construction.

Grid Powered

For areas with a stable power source, grid-powered towers offer a clean and cost-effective lighting solution. These units eliminate fuel costs and emissions while delivering powerful, consistent lighting for long-term site use or urban infrastructure projects.

Hybrid Powered

Combining engine and electric power, our hybrid towers are built for efficiency and sustainability. These systems intelligently switch between power sources to reduce fuel consumption and environmental impact—making them perfect for eco-conscious projects and remote locations with intermittent grid access.

Outdoor Lights

Our range of outdoor lighting solutions is designed to perform in the toughest environments while delivering unmatched efficiency and brilliance. From high mast and flood lights to street, area, and high bay lights—each product offers durable construction, energy savings, and precise illumination. Whether it's a stadium, highway, warehouse, or urban space, our lights are built to brighten every corner with reliability and clarity. Discover lighting engineered for every outdoor need.

Sports Light

Illuminate every moment with high-performance LED sports lights—engineered for clarity, power, and efficiency. Ideal for stadiums and fields alike, they offer uniform brightness, long-lasting durability, and energy savings. Light up the game the way it was meant to be seen.

Flood Light

Our LED flood lights combine powerful performance with energy efficiency. Built for all weather, they're perfect for stadiums, security, and outdoor landscapes—offering adjustable settings to suit any need.

Area Light

Brighten large outdoor spaces with our high-efficiency area lights. Designed for parking lots, campuses, and industrial zones, they offer wide, uniform coverage with low energy use and durable, all-weather performance.

Street Light

Engineered for roads, pathways, and urban spaces, our LED street lights ensure consistent brightness, reduced power consumption, and long operational life—delivering safety and visibility with every install.

High Bay Lights

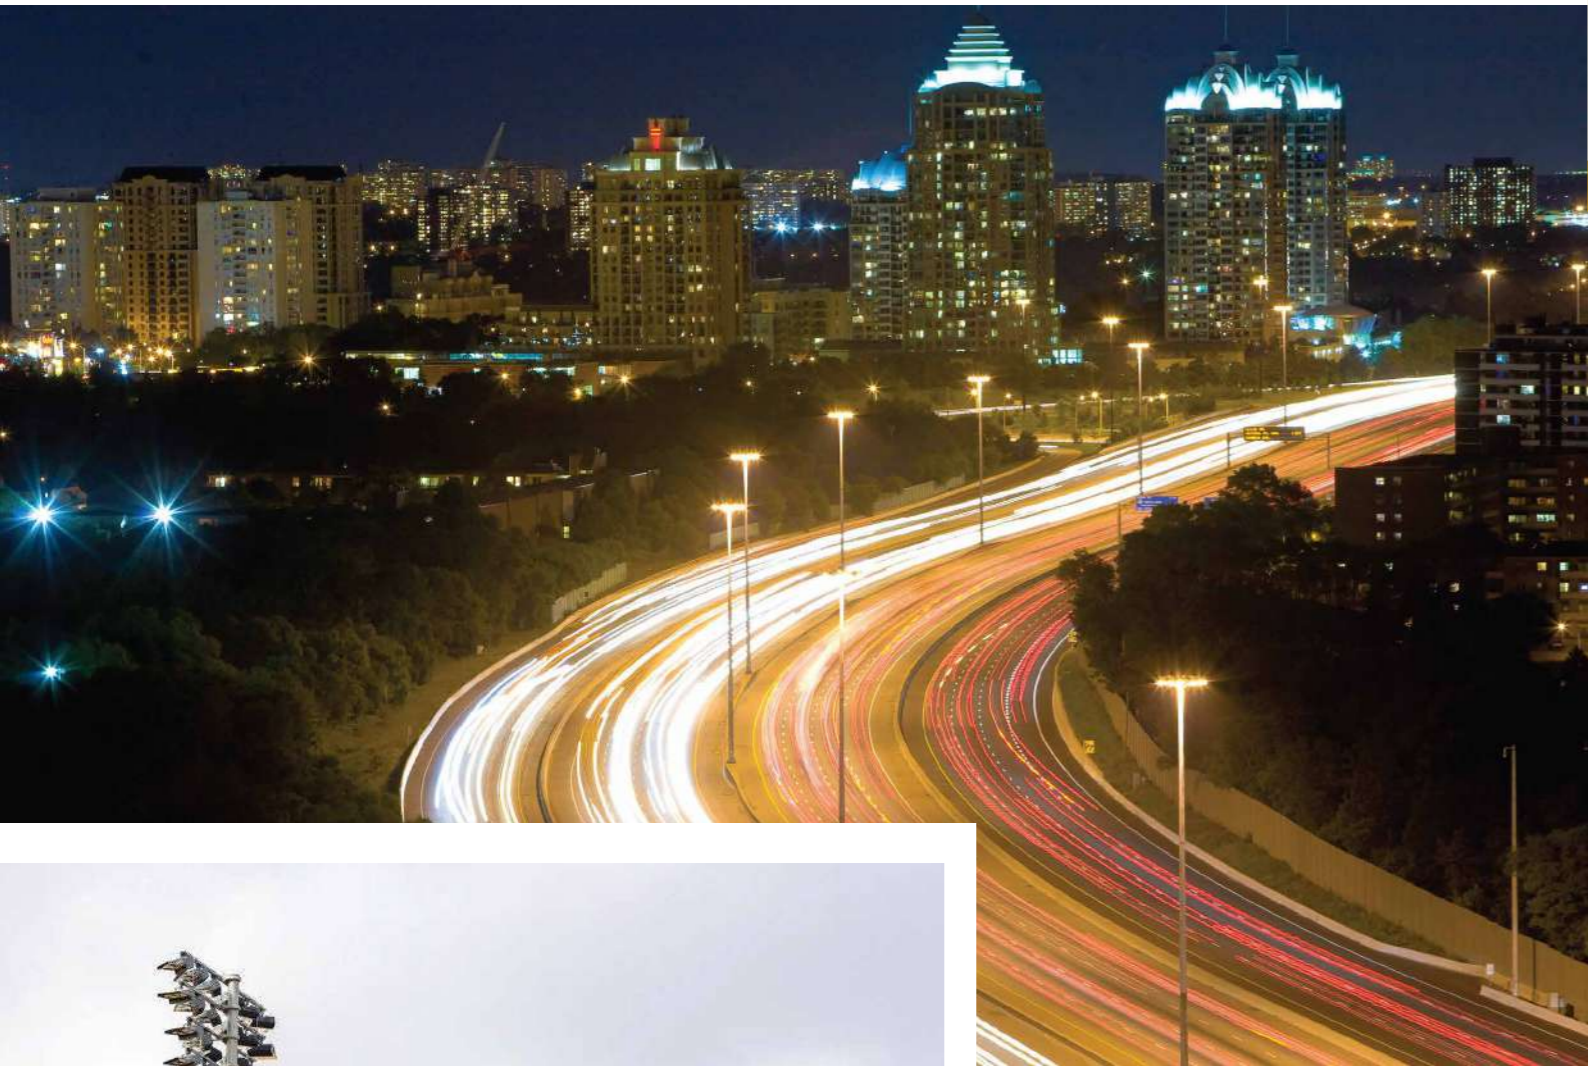

Designed for warehouses, factories, and large indoor spaces—our LED high bay lights offer powerful brightness, energy efficiency, and long-term reliability. Experience high-performance lighting built for industrial demands.

High Mast Light

Ideal for airports, highways, and large outdoor areas—our high mast lights deliver powerful, uniform illumination with lower energy use and minimal maintenance. A reliable, eco-friendly solution for wide-area lighting.

High Mast Tower Accessories

Heavy Crane Duty Motor

Heavy Crane Duty motor available in 1HP to 3HP as per our customer requirement.

Single Gear Double Drum Winches (SGDD)

We are engaged in offering our clients a high quality range of Single Gear Drum Winches Rating Of 350-750 kg. It offers flexibility to level the top head frame by independently operating the winches. These winches are [manufactured with the help of premium quality components and modular technology in compliance with set industry standards.

Double Gear Double Drum Winches (DD MFO)

We are engaged in offering our clients a high quality range of Double Gear Drum Winches Rating Of 550-1100 kg. It offers flexibility to level the top head frame by independently operating the winches. These winches are (manufactured with the help of premium quality components and modular technology in compliance with set industry standards.

Stainless Steel Wire Ropes

Stainless Steel Wire Ropes is our very important and integral product. These are available in grades like AISI 304 /316 / 316 L from 1.5mm up to 18 mm in various constructions including: 1X19, 7X7, 7X19. These Ropes are used in demanding conditions and it is therefore vital that the tolerance and chemical composition of the material is as per the required AISI 316 Norms.

Wire Rope Slings

Wire rope slings are an important piece of rigging hardware used in lifting and hoisting operations and are commonly used across different industries. These configurations include single and multi-part slings (such as round braids, flat braids, Tri-Flex and cable-laid slings), grommets, single leg slings, multiple leg bridles, and a wide variety of fittings and attachments.

Lantern Carriage

Hot Dip Galvanizing Lantern Carriage available as per light mounting requirement (Arms : 6 arms to 12 arms)

Galvanized Head Frame Bracket

Hot Dip Galvanizing Head Frame Bracket available as per requirement of [high mast top head size (Size: 70mm to 200mm)

Thimbles

We have found that thimbles are one of the most frequently used types of [wire rope accessory. They help to protect the section of rope that forms the eye, meaning the total service life of the rope can be extended greatly. They also help to make this eye stronger and rigid. For thimbles, we also have various sizes available. You can purchase them in sizes 4mm to 50mm in mild steel, or 2mm to 24mm in stainless steel.

Single Dome LED Aviation light

Single Dome LED Aviation lights, which are approved by ICAO and [FAA approved. Inside the body of these lights, terminals are provided for better earthing. Our aviation lights are used in telecommunication towers, airports and fire stations. We also check the quality of these lights before being offered to the clients.

Stainless Steel 304 Wire Rope Clamp

Handles smooth or barbed wire up to 5/32" (#9 wire)
Cam action insures tighter lock
Shields and protects hand from barbed wire
Cast malleable iron, plated to prevent rusting

Double Dome LED Aviation light

Double Dome LED Aviation lights, which are approved by ICAO and FAA approved. Inside the body of these lights, terminals are provided for better earthing. Our aviation lights are used in telecommunication towers, airports and fire stations. We also check the quality of these lights before being offered to the clients.

Winch and Motor Mounting Bracket

Hot Dip Galvanizing Bracket available as per requirement of high mast winch and motor size

Electric Torque Limiter

Our competency lies in offering our clients an excellent quality range of Electric Torque Limiter. The offered limiter is installed in motor [slips if the required torque exceeds the defined limits thus protecting the motor against overload.

Wire Rope Pulleys

We are engaged in offering our clients a high quality range of Mast Pulleys. The offered pulleys are manufactured using high grade components and sophisticated machines in compliance with set industry standards.

EPR Trailing Cable Pulleys

We are engaged in offering our clients a high quality range of Mast Pulleys. The offered pulleys are manufactured using high grade components and sophisticated machines in compliance with set industry standards.

Outdoor Feeder Pillar

Out door feeder pillar for high mast lightning system available in 32 AND 63AMPS with HIGH MAST AUTO ON/OFF CONTROL

High Mast Junction Box

We are offering an excellent range of High Mast Junction Box that is widely lused to connect electric cables and connection at a single point. These boxes are manufactured by using best grade raw component and most modern technology as per set industry norms.

High Mast Pole Lightning Arrestor

The surface of this High Mast Pole Lightning arrestor, after polishing and electroplating has strong corrosion resistance that is suitable for fitting in poles.

EPR(Ethylene Propylene Rubber) FLEXIBLE TRAILING CABLES

Natural or synthetic fibres or elastomer suitable for the operating [temperature and compatible with the insulating material
Size: 1.5 Smm To 50 Smm

High Mast Pole Anchor plate & Template

High Mast Foundation BoltAnchor plate & Template is designed by using finest quality material and it is widely appreciated by the clients for its durability and high strength.

Sprocket for Which and Motor

Mild Steel Chain Sprocket available as per requierment

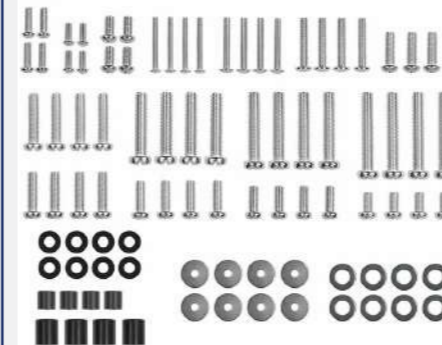

Hot Dip Galvanizing Foundation Bolt

Hot Dip Galvanizing Foundation Bolts with two nuts and wishers available as per requierment

High Mast Motor Roller chain

Cast iron roller chain with no slip while running

High Mast Hardware Accessories

High Mast Hardware Accessories like nuts bolt, high tension bolt, SS Nuts & bolt, Cable locking Clamp etc...

Lantern Carriage Resting Arms

Hot Dip Galvanizing Resting Arms available as per requierment.

Turn Buckles

These act in a similar manner to like screws and are used for the tightening or tensioning of wire rope. You'll commonly find them being used in rigging applications, or where the rope needs to be I tightened to a specific tension. Common examples are bridge wires or barriers and fences. You'll find that these come in various styles land combinations, as well as sizes.

Shackles

A shackle is a type of connector, that can be easily removed whenever you wish. They help to connect different pieces of lifting equipment; such as steel rope with chains or slings. They feature a screw pin in a shackle, allowing for the easy tightening or removing. You can also get some with safety bolts, which are designed for more permanent fixtures.

Eyebolts

Eyebolts help to create a permanent anchorage point to aid with the lifting of objects which otherwise could not be lifted by hand or by the aid of a fork lift. These have a round eye and a threaded shank attached.

Our Parent Company

KRISHNA.
ELECTRICALS

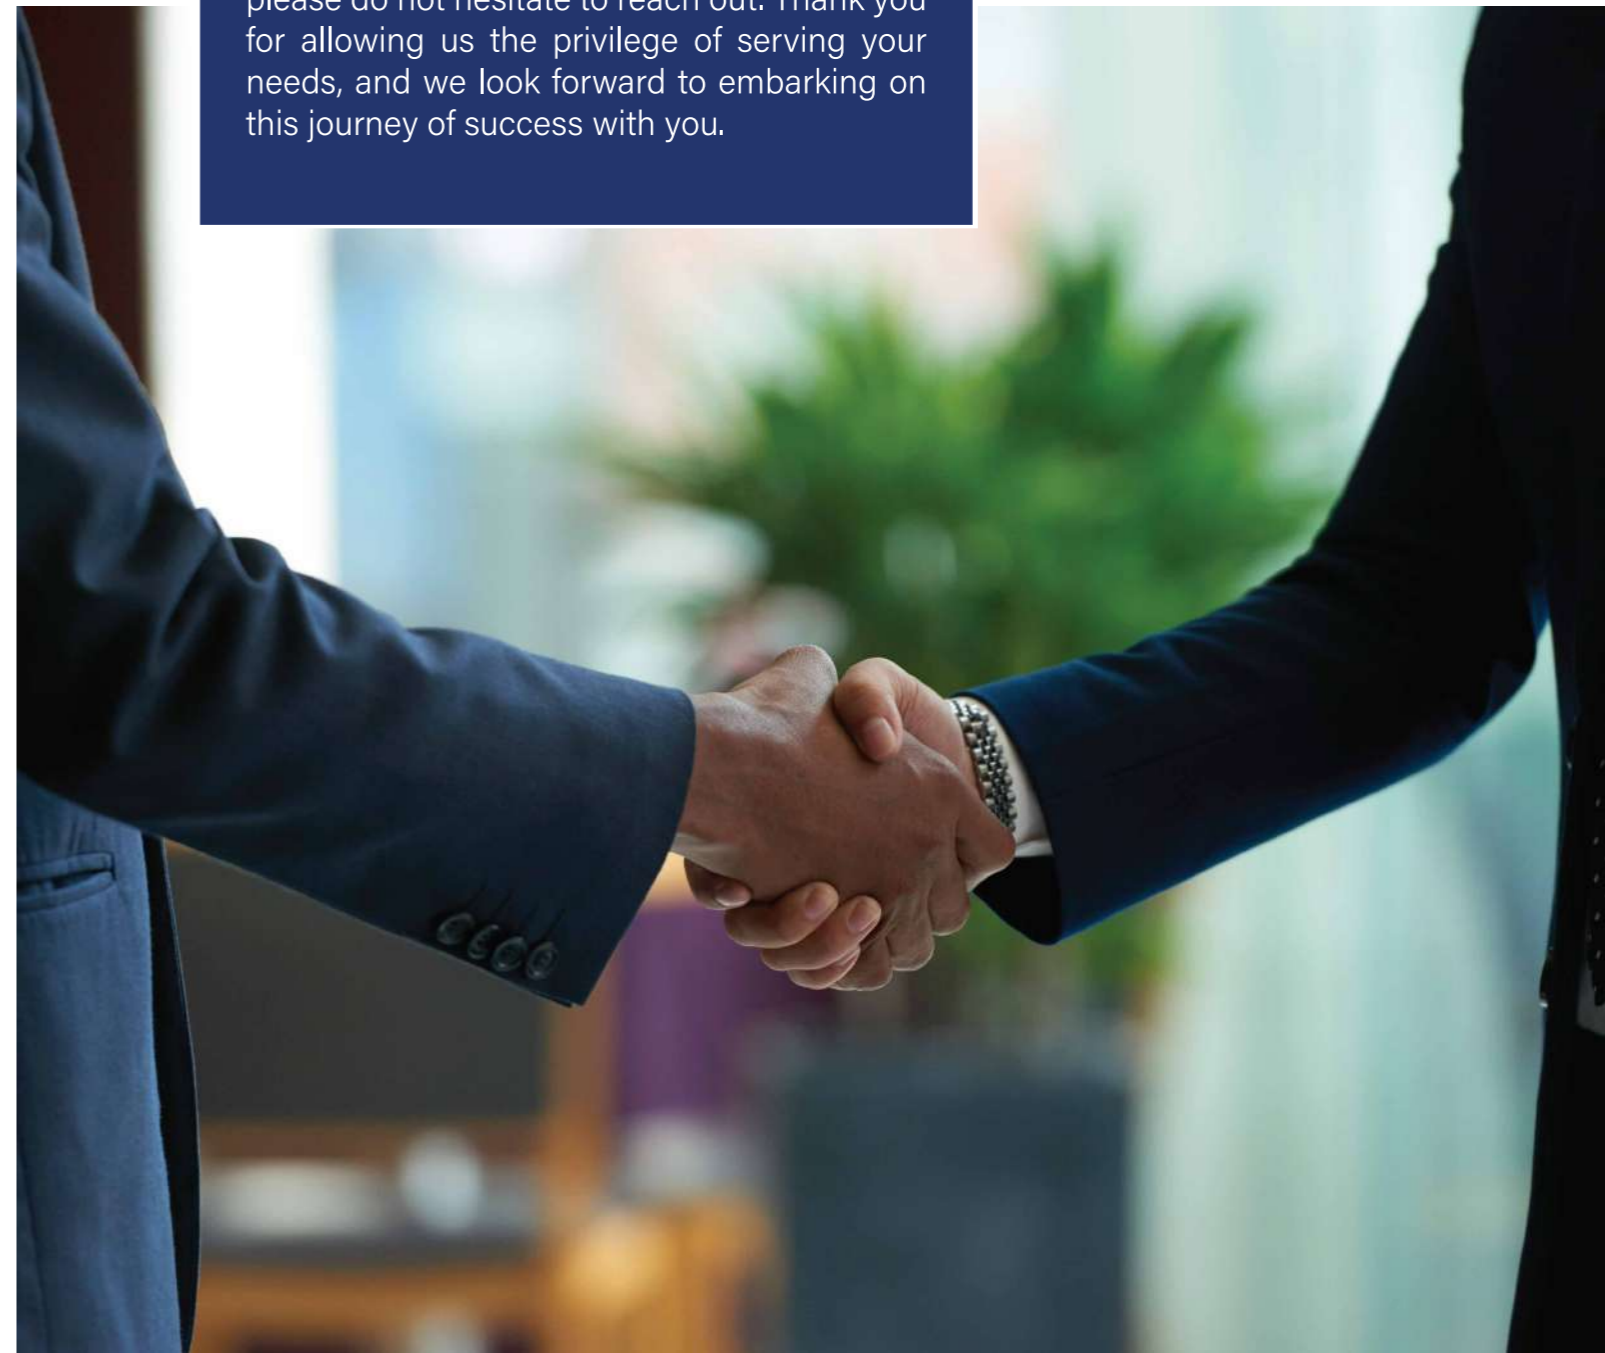

FRISSON
GLOBALIZE

Global Reach,
Local Expertise

Krishana Electricals, our esteemed sister concern **established in 2010**, has earned its reputation as a beacon of excellence in the electrical industry. With a track record of successfully **completing over 500 projects**, Krishana Electricals is dedicated to delivering innovative electrical solutions. Their commitment to quality, safety, and client satisfaction mirrors our own values at Frisson Globalize. Through their expertise and unwavering dedication, Krishana Electricals has **contributed significantly to the success and growth** of our group of companies. Together, we continue to illuminate the path to progress in the world of engineering and electrical solutions.

Thank You from Frisson Globalize

At Frisson Globalize, we extend our sincere gratitude for considering us as your trusted partner in engineering product exports. Your interest in our company and our commitment to excellence means the world to us. We look forward to the opportunity of working together, exploring new horizons, and creating brighter futures through innovative solutions and reliable partnerships. Should you have any inquiries or require further assistance, please do not hesitate to reach out. Thank you for allowing us the privilege of serving your needs, and we look forward to embarking on this journey of success with you.

 B/255-56, Royal Plaza, Opp.Patel Park Society, Simada-BRTS Road, Simada, Surat-395010, Gujarat, India.
